- Coverage for firms' contractual requirements, ethical obligations, and client responsibilities.
- Coverage for unknown prior acts included.
- Selection of defense counsel available.
- Coverage provided for contractual liability and actions required to comply with cyber privacy laws.
- Definition of insured includes paralegals, contract attorneys, outsourced providers, and "of counsel".
- Broad cybercrime coverage extends to fraudulent funds transfer, social engineering, invoice manipulation, and theft of telephone service, computing resources, and bandwidth.
- Cybercrime coverage for money and securities applies to the firm's accounts as well as trust accounts.
- Regulatory coverage extends to fines, penalties and consumer redress (where allowed by law).

## Incident Response and Claims Handling

Cyber risk incidents and claims at law firms are significantly more complex than claims in other industries because cyber risk claims at law firms often involve confidential information or information subject to attorney client privilege. Therefore, we built our SafeLaw incident response team using third-party legal and cyber risk specialists with expertise in law firm claims.

## Program Summary

The SafeLaw program was built by lawyers to provide comprehensive cyber risk insurance coverage and services law firms need.

SafeLaw incorporates industry specific coverage components, a wrap structure that dovetails with lawyers' professional liability coverage, and specialized law firm incident response and claims handling services.
